Benalmadena /

### ***Golden Location***

Introducing Marina Golden Bay - a new stylish project set adjacent to the bustling port of Benalmadena.

The location offers stunning views of the sea and the marina, a city home by the sea.

The main building was inspired by the shape of a boat moored in the harbour and will consist of 33 luxurious apartments. Choose from one-, two- or three-bedroom properties.

The homes are designed to offer you a modern and comfortable space with open and bright interiors with high quality finishes.

The layout makes the most of natural light and the amazing views. You will notice this as all rooms open to the spacious exterior spaces through large windows which flood the apartments with light and warmth.

The lush, landscaped gardens and pool area are the perfect spot to relax and enjoy the Mediterranean weather.

The location within Benalmadena means you are close to all amenities including shops, bars/cafes, banks, health care, and of course, water sports along the 10 kilometres of beaches at Benalmadena Costa.
