Benalmadena /

Eternal Sea Views

Introducing Mane Residences - a new project consisting of 49 apartments and 2 townhouses, in a wonderful part of Benalmadena.

Thanks to the elevated position of the plot, the homes offer stunning panoramic views of the coast and Mediterranean Sea.

The layout of the apartments follows the sloping terrain which allows space for generous terraces, further enhanced by glass railings which mean the views can be enjoyed from inside and out. This also allows more natural light to make its way inside the homes.

You have a choice of 2 or 3 bedroom apartments, all with large terraces, bright and spacious penthouse apartments, and townhouses, which come with a private garden.

The communal areas of Mane Residences include a stunning swimming pool and a fully equipped gymnasium.
