

Apartment, Penthouse

From: €413,000

La Cala de Mijas /

New Release Apartments and Penthouses

Solana Village is a new residential project, with 48 apartments being offered for sale in this first phase.

The project will be set on top of the hill overlooking the Europa Golf Course, in La Cala de Mijas, a fabulous position that affords residents spectacular panoramic views of the golf course and out to the sea. All the apartments are either East or South facing, meaning plenty of natural light all through the day.

Solana Village will be located very close to the club house and the hotel & spa, which owners will be able to use to take advantage of the benefits and discounts provided by the Privilege Card.

The project will be split over two separate plots with 105 and 90 apartments. Construction of the first phase of apartments is already underway, creating 48 apartments in five 3-storey buildings.

All of the properties will have large terraces with glass enclosures to allow you to make the most of the space whatever the weather. Ground floor apartments will have private gardens to enjoy the views of the pool, resort gardens, golf course and the stunning surrounding area.

The homes are fully equipped, with fitted wardrobes, air conditioning, fitted kitchens and appliances, LED lighting package and fully fitted bathrooms. There is also an options package available to personalise your home.
