Estepona /

The Home You Waited For

Welcome to Scala - a new project in Estepona consisting of apartments with 1 - 4 bedrooms, a garage and a storage room.

The communal areas at Scala are second to none. With two salt chlorinated swimming pools, a fully equipped gymnasium, sauna, coworking room and a social club for entertaining family and friends, or neighbours. Scala is a resort you live in.

All the properties have been designed to create an open space with seamless transitions from living room to open kitchen, as well as between your inside and outside spaces. Views and natural light are one of the main attractions of properties at Scala.

The project is situated just a few minutes from Estepona seafront promenade and beach. This excellent location allows you unobstructed views to the sea, mountains or city centre. You are also close to the main essential amenities including shops, health care, banks, schools, and the nightlife of Estepona marina and town centre.
