Estepona /

Modern and Functional

Welcome to Sea Views Estepona - a new modern and functional project only 5 minutes from Estepona town centre.

The project consists of 63 two and three-bedroom properties. All of the homes boast either a south or south-west orientation, many of them offering splendid sea views.

The ground floor properties feature lovely private gardens, while the penthouses have spacious terraces. All properties come with at least one parking space and a storage room.

The communal areas are made to enjoy your leisure time amongst fine garden spaces with a community pool and a gymnasium.

Every detail has been taken care of to make this residential community your future home. The quality, distribution and design of this project give it a spirit of its own.

The location means you are close to many of the best beaches Estepona has to offer as well as many fantastic golf courses, shopping and leisure facilities, including Estepona Marina, as well as supermarkets, restaurants, a hospital and pharmacies. You are also only 15 minutes from Marbella. Where else would you want to be?
