Benalmádena / Costa del Sol

Unique Eco-Friendly Villas

Benalmádena Villas is a new project in the last pristine valley of Benalmadena. The project consists of 25 unique eco-friendly villas, each one sitting on a plot of 2,000m².

Each property has a different design and layout yet all are designed to blend with the local surroundings and to provide you with the luxury you desire. Modern design and Mediterranean flair make these properties stand out from the crowd.

The project sits in picturesque surroundings only a short distance from Benalmadena pueblo, and a short drive from Marbella. Benalmádena Villas is a unique project built with sustainable materials.

The luxurious villas have 3 or 4 bedrooms, along with an open-plan kitchen/dining/living area. Large floor to ceiling windows make the most of natural light and allow an almost seamless transition between the indoor and outdoor space.

The site sits in large landscaped gardens along with swimming pools and seating areas.
