Welcome to Blossom

Welcome to Blossom Phase II - a new residential project in Benalmádena Pueblo. The project is located in a quiet area with magnificent views of the sea and mountains.

Benalmádena has all the everyday amenities you could need including supermarkets, schools, leisure and sports areas as well as an abundance of restaurants and bars.

The development consists of 57 new homes with 2 or 3 bedrooms, as well as top-floor penthouses. All the properties include a storeroom and 2 parking spaces.

The open-space design of the homes combine versatility and comfort. The fully-equipped kitchens include an island and are open-plan and integrated into the living area. The rooms have direct access to the spacious terraces to enjoy the outside space.

The communal areas of the project include a gymnasium, a social room and a large swimming pool for both adults and children to enjoy.
