Estepona /

The Place You Wanted To Be Part Of

Introducing Kairos Estepona - a new residential project of 95 apartments in the heart of Estepona.

This spectacular new building will house apartments of 1, 2 and 3 bedrooms. Designed with minimalist ideas, the complex stands out for the elegance of its construction.

From the first step you take inside, you will notice the different spaces created where care has been taken with the finishes and the use of the highest quality materials throughout.

The different sized homes are there to accommodate families of all sizes. Each of the apartments are bright and modern with plenty of natural light and stunning views.

The properties all include a parking space in the same building and also a storage room.

On the roof of the complex you will find a stunning rooftop pool with amazing sea views. There will also be a gym within the building to keep you busy.

At the heart of Estepona you will find yourselves very close to wonderful beaches, as well as shops, banks, restaurants, schools, hospitals and supermarkets. You are also only a short drive from some amazing golf courses. Marbella is only 15 minutes up the road, while Malaga airport is around a 45 minute drive.
