

Apartment, Penthouse

From: €395,000

Estepona /

The Perfect Home

Introducing Mesas Homes - a new project of new homes with one to four bedrooms, sitting just outside Estepona town centre.

The project will be distributed across three separate plots containing a total of 187 homes only minutes away from the beaches and the marina of Estepona.

The south-southeast orientation brings a wave of natural light into the properties while the elevated position affords the owner magnificent views of the sea and Estepona town from the large terraces.

Each of the three phases has its own style with its own communal areas, including gardens and swimming pool. The central development also offers an indoor pool and fully-equipped gymnasium. Additionally, Mesas Homes offers 245 parking spaces and 171 storage rooms in the basement of the development.

The homes are spacious, with living rooms and dining rooms connected by spacious terraces. Fully equipped open-plan kitchens with low consumption appliances offering sustainability, practicality and comfort.

You even have options to tailor your new home to your desires and needs. Options include different styles of flooring and paint, two different options for bathroom floors and tiling, swapping bath for shower, and vice-versa, three options for kitchen furniture and the possibility of a jacuzzi on your terrace (at additional cost).
